Having held the position of commissioner of sustainability in the ASCC cabinet last year as well as my positions as co-chair of MEChA and Go Green, I feel that I have developed the leadership capabilities to not only make a good student leader but to also help other student leaders become the leader that they are capable of being. Not only will I work hard to represent the student body of Cerritos College, but I will work equally hard at helping my fellow senators to be the best representatives of the students as well. If elected I will continue fighting the good fight, asking the tough questions, and seeking answers to student concerns. Together we can make a difference on our campus. Si Se Puede!!!
