

# HEALTHY PETS LIVE HEALTHY LIVES

	<b>01</b>	<i>Visit the vet once a year</i>	
	<p>An Annual physical checkup will allow your veterinarian to evaluate the health of your pet and see if there are any red flags.</p>		

	<b>02</b>	<i>Get them moving</i>	
	<p>Regularly exercising your pet does wonders for his or her physical and mental wellbeing, Not only do daily walks and other outdoor activities help preserve muscle tone and joint health,</p>		

	<b>03</b>	<i>Feed your pets a healthy, balanced diet</i>	
	<p>Dogs and cats have different nutritional requirements over the course of their lives. Puppies and kittens, for example, require a different nutrient balance than their adult counterparts.</p>
